

Dr hab. Magdalena Rzewuska

CURRICULUM VITAE

Name: Magdalena Rzewuska
Present Position: Associate Professor
Address: Department of Preclinical Sciences, Institute of Veterinary
Medicine, Warsaw University of Life Sciences (WULS),
Czajewskiego 8 St., 02-786 Warsaw, Poland
E-mail: m.rzewuska@wulski.edu.pl

Academic appointments:

2019 Associate Professor, Department of Preclinical Sciences, Institute of Veterinary
Medicine, WULS, Poland
2017 Head of the Microbiological Diagnostic Laboratory, Department of
Preclinical Sciences, Institute of Veterinary Medicine, WULS
2000-2019 Assistant Professor, Division of Microbiology, Department of Preclinical
Sciences, Faculty of Veterinary Medicine, WULS, Poland
1990-1999 Assistant, Faculty of Veterinary Medicine, WULS, Poland

Academic degrees:

2017 Habilitation in Veterinary Sciences (WULS)
1999 PhD in Veterinary Sciences, the Faculty of Veterinary
Medicine, Warsaw University of Life Sciences, Poland
1990 MSc degree in Biology (specialization – microbiology), the Faculty of Biology,
University of Warsaw, Warsaw, Poland

Professional experience:

Dr hab. Magdalena Rzewuska has wide experience in the field of research and teaching of veterinary microbiology, and in microbiological diagnostics. Generally, her scientific interests are focused on diagnostics of bacterial infections in animals and the pathogenicity of various bacterial species. Her major research topics are the virulence of microorganisms and their antimicrobial resistance, also pathogenesis and epidemiology of bacterial infectious diseases. The main directions of her studies are: 1) characterization of pathogens causing purulent infections in ruminants 2) characterization of *Trueperella pyogenes*, *Rhodococcus equi* and *Corynebacterium pseudotuberculosis* strains of various origin; 3) phenotypic and genotypic research on the antimicrobial susceptibility and virulence of animal pathogens. Currently, her research effort is also directed at antimicrobial activity of various substances and composite materials, their influence upon microorganisms in planktonic and biofilm forms, as well as their biocidal effectiveness. She participated in 17 grants and projects (national and

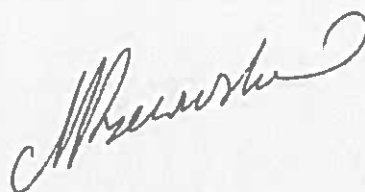

international). Her achievements to date cover 90 publications and 117 reports presented during international and domestic scientific conferences, as well as 25 works in monographic publications and 10 chapters in textbooks. She supervised 17 graduate works (Master's and bachelor's degree theses), and she was a doctoral supervisor of one PhD thesis. As a reviewer she cooperates with many international journals. She is an active member of the Polish Society of Microbiologists, the American Society for Microbiology, The European Society of Clinical Microbiology and Infectious Diseases, and the Polish Society of Veterinary Sciences. She is a member of the Commission for Biocidal Products of the Office for Registration of Medicinal Products, Medical Devices and Biocidal Products in Poland.
